THE RESIDENCE

Nidus Apartment 4

Occupying a supremely enviable position on the second floor of the prestigious Nidus building, Apartment 4 places guests just a short walk from the nearest lift station and mere minutes from the enchanting village centre of Lech. Extending across 211 square metres, this exquisitely furnished five-bedroom residence accommodates up to ten guests in surroundings conceived by a leading interior design specialist, where rich fabrics, chic furnishings and state-of-the-art design combine with awe-inspiring views of the snow-dusted peaks beyond each window.

The master suite is a study in considered luxury, offering a beautifully appointed double bedroom, a private dressing area, an en-suite bathroom with a separate shower and a personal sauna. Two further bedrooms, each configurable as twins or doubles, share a private shower room, whilst on the opposite side of the apartment an additional twin or double room shares its facilities with a charming children's bunk room. Every bedroom has been individually finished with soothing tones and thoughtful alpine touches. The generous open-plan living and dining area is anchored by large, inviting sofas, a decorative fireplace and subtle lighting, flowing seamlessly to a dining table that seats ten comfortably. Large French windows open onto a south-facing terrace that catches the afternoon sun, an ideal setting for sundowners against the glittering backdrop of the village.

For parties of twenty, the apartment may be combined with a neighbouring residence to create an exceptional shared dining experience within these walls. A professional kitchen on the lower floor of the building supports the fully catered service, with meals prepared and served by dedicated hosts in the privacy of the apartment. Guests benefit from a shared ski room equipped with boot warmers, private laundry facilities and, on request, an underground parking space, whilst a shared driving service operates from 8.30am until 1.00am for those taking the property on a fully catered basis. The apartment is available on a catered or self-catered basis to suit every preference.
