THE RESIDENCE

Sasha Apartment 3

Newly completed and positioned just one minute on foot from the Jardin Alpin lift station, Sasha Apartment 3 places guests at the very heart of Courchevel 1850's celebrated ski terrain. Spanning 116 square metres across two floors, the apartment combines rich textured fabrics with natural wood panelling to create an atmosphere that is at once warmly alpine and crisply contemporary. Large windows frame views directly onto the slopes, ensuring that early-morning departures to the piste require no compromise whatsoever on comfort or convenience.

The principal floor is arranged around a generous open-plan kitchen, living and dining space, where a large dining table seats eight guests with ease and a marble-style breakfast bar accommodates a further four, fostering an effortlessly convivial atmosphere. Three double bedrooms, each finished with sleek wood panelling and neutral-toned furnishings, offer a serene retreat at the end of the day. Two bedrooms benefit from private en-suite facilities, while the third is served by a separate shower room, and a dedicated dressing room on this level provides ample storage for the entire party.

Descending to the lower ground floor, a cosy television room offers a welcome space for relaxed evenings, complemented by an additional shower room. Guests further enjoy shared access to a hammam within the building, adding a restorative dimension to each day on the mountain. A shared ski room with individual lockers ensures equipment is always to hand, making Sasha Apartment 3 an ideal base for a group of six who wish to ski Courchevel 1850 to its fullest.
